AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

FALSE REPORTS.

In the Victoria *Colonist* of Thursday we find one of those sensational articles for which that journal has for some time enjoyed a high reputation. The article alleges in the most authoritative way, that the last mail brought important dispatches respecting the Confederation scheme, and that it was to reply to these dispatches his Excellency hurried down from Yale the other day. Our contemporary gets excited over the matter, and concludes by throwing up his hat and shouting "Hurrah for Confederation and the Overland Railway!" Need we say that the "important dispatches" alluded to had only an existence in the diseased brain of the writer of the article? If the object in manufacturing such an article was to help forward the great scheme of Confederation the Editor of the *Colonist* ought to know that such a cause needs not such doubtful help. If the object was to provide an antidote for the annexation fever which is said to be raging with increased virulency in Victoria, the veriest quack ought to know that "dough pills" were a better medicine. The very fact that our contemporary will persist in mixing up the Confederation question with such absurd, bubble-speculations as Waddington's Bute Inlet Road proves how unfit he is to handle any great subject, and how little the true friends of Confederation have to expect from that quarter. Nothing could be better calculated to bring the whole thing into bad odor than such advocacy. The unquestionable advantages of Confederation are not to be extended to the Pacific or the extension of them hastened a single day by the manufacture of sensational articles about imaginary despatches. Nor will the opening up of the Overland Road be accelerated by hitching it on to "Waddington's Folly." In the same paper we find another article in which it is stated that "several days ago the Government checks on the Bank of British Columbia were thrown out." We need hardly say that this story is as destitute of any foundation in fact as the one about the dispatches; and one can only wonder what possible motive can actuate a public journalist in thus, at the expense of truth and decency, attempting to traduce his own country, his own kith and kin. That the finances of this Colony are in a depressed condition it were folly to attempt to conceal. The fatal error of allowing a few speculators to outwit the Government and pocket something like six or eight months' revenue has resulted as we predicted, in extreme financial embarrassment. As an illustration of the real state of the case it may be mentioned that during the week ending Saturday the 18th inst. the road tolls collected at Yale alone amounted to $2,800, while the entire Customs revenue collected here and at Victoria during the same period did not amount to 10 per cent. on the road tolls! The Victoria press should say little about the financial difficulties of the Government and that little should be mild and self-criminating.

ENGLISH MAIL.—By yesterday's steamer we have English exchanges to the 16th April. The London *Times* in alluding to the vote in our Legislature in favor of Confederation, thinks that although the movement of British Columbia may help to bring to issue the long pending question of the H.B. Co's. proprietary over the North West Territory, yet it will be necessary for Canada to acquire the intervening country before she can give effect to the vote of British Columbia.

RIFLE MATCH.

A match came off at the Park Lane Butts on Monday, between Ten of H. M. Ships Malacca and Sparrowhawk, and Ten of the N. W. V. R. Corps. The annexed abstract of the score exhibits the result: The New Westminster Corps, never beaten yet excepting by the Home Guards, made an excellent score and won by 85 points. When it is borne in mind that the Naval Ten was drawn from two ships, and that their opponents had not practiced for the occasion, the N. W. Corps may well be proud of the result and of their Ten. With five shots each at the four ranges to make an average of fifty points to the man is good shooting under all the circumstances. It will be seen that Mr. J. T. Scott made the highest score. Nor have the vanquished Ten any cause for shame. In their case defeat is not disgrace. An average score of 41½ is not bad. The following exhibits the totals made at each range. We have not room to publish the score in full;—

SABBATH DESECRATION.—A communication upon this subject has been received, but its publication is declined, first, because upon careful enquiry we find that the writer is in error in more than one important point, and secondly, because we are of opinion that its publication would tend to no real good. We would not be discharging our duty, however, if we did not mark in the strongest terms our disapprobation of conduct on the part of those in authority calculated to countenance or encourage Sabbath desecration, especially at a time when so many semi-savages are present, who naturally look up to the ruling class for an example We are told a very interesting anecdote respecting the Queen and a heathen Prince who came to her to learn the secret of England's greatness; Our noble Queen presented the Prince with a richly bound volume of the Bible with this writing on the title page:—"This is the secret of England's greatness." Glorious words of a noble woman! We respectfully but earnestly commend the sentiment to the consideration of every man in authority in the Colony. If it be true of England that the Bible is the secret of her greatness may not the converse of the sentiment prove to be true of British Columbia, unless those in high places cultivate, both by precept and example, a greater regard for the teachings of that holy Book?

THIS Company having greatly enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the mining and commercial value of bullion.

Their charges hereafter will be as follows:—

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One-eighth of one per cent. (hitherto a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent over, and one per cent. on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300@450 parts gold, 4 cents per ounce.
On bullion from 450@750 parts gold, 6 cents per ounce.
On bullion from 750@850 parts gold, 8 cents per ounce.
Above 850 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the mint—a half of one per cent., which is paid by us to that institution. But there will be no charge hereafter for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN MADE IN FORTY-EIGHT HOURS.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express.

CHARGES AT U. S. BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution.

For refining bullion under 300 parts gold, 3cts per ounce.
For refining bullion from 300@500 parts gold, 6 cts. per ounce.
For refining bullion from 750@850 parts gold, 11cts. per ounce.
For refining bullion from 850@945 parts gold, 8 cts. per ounce.

The charge for coinage is one-half of one per cent. and the charge for silver parting.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars lose ½ of one per cent—they must be sold at the following par rates to equal the return which would have been received had they been deposited for coinage:—

830 par to equal Mint return, at refining charge of 11 cents.
845 par to equal Mint return, at refining charge of 8 cents.
865 par to equal San Francisco A. & R. Works return at refining charge of 8 cents.

WEDNESDAY, MAY 29, 1867.

THE CELEBRATION.

The loyal people of New Westminster, with a sprinkling from Victoria and from the interior and about one hundred and fifty from Nanaimo, celebrated the anniversary of the birth of our beloved Queen on Friday and Saturday with rather more than ordinary *eclat.* The arrangements on the Cricket ground had, under the able direction of Mr. J. T Scott, assumed a degree of comfort and completeness never before attained. A pavilion 22 feet in length, tastefully decorated and seated for 400 persons stretched across the upper end of the ground, commanding an excellent view of the sports. In front a platform was erected and around all the ropes were stretched, forming a large ring. At 12 o'clock, the New Westminster Volunteer Rifles, under Captain Pritchard and the Home Guards, under Captain Calder, being drawn up in order, his Excellency the Governor, attended by a brilliant staff, appeared on the ground. His Excellency was received with loud cheering from the thousands of assembled natives, a general salute from the Volunteer Companies, and as he took his place upon the platform the St. Mary's Amateur Brass Band, composed of native boys belonging to the school, played and afterwards sang the National Anthem. And we must remark that both the instrumental and vocal efforts were creditable alike to the teachers and pupils of St. Mary's school. Immediately after, Mrs. Seymour, Captain Oldfield, R. N., the Bishop and Mrs. Hills and the other visitors at Government House drove up and were conducted on to the platform, the Indians again cheering for Mrs. Seymour.

ADDRESS TO THE NATIVES.

The assembled Indians, about 4000 in number, formed an immense circle, extending from the pavilion on either side down to the lower end of the Cricket Ground. Inside of this circle was a smaller one composed of the Native Princes and their standard bearers. The Chiefs of the various tribes having been conducted to the front of the platform and presented, His Excellency addressed them, and through them their people, to the following effect:—His Excellency expressed the pleasure he felt at meeting with them once more upon the occasion of celebrating the birth of the Queen, and especially the gratification he felt on hearing of their good behaviour during the last two years He commended their loyalty, and pointed out the advantages of living in peace and pursuing knowledge, civilization and industry, and assured them of the best wishes for their welfare of both himself and the Queen.

To this the Chiefs replied very briefly that they were glad to speak to the Governor. They thanked him for what he had done for the Indians, and for his kind assurances of good will.

THE PRESENTATION.

Mrs. Seymour then proceeded to give away the flag to the New Westminster Rifle Volunteer Corps. The Flag has a white silk ground with the cross of St. George, in the upper canton the Union Jack worked in silk. In the centre of the flag, N.W.V.R.C. marked in gold, with a gold star above and gold bugle and crown below. The flag has a handsome gold fringe and cord and tassells of the same material, with a staff of polished ash, a socket and spear head of copper. The flag having been arranged in the usual way, the Right Reverend the Bishop of Columbia consecrated the flag with the following prayers:—

THE PRAYER FOR THE QUEEN.

Almighty God who rulest over the kingdoms of the world, and disposest of them according to Thy good pleasure we yield Thee unfeigned thanks for that Thou hast preserved in health and strength unto this day thy servant our Sovereign Lady Queen Victoria. Let Thy wisdom be her guide, and let Thine arm strengthen her; let justice, truth and holiness, let peace and love and all those virtues that adorn the Christian profession flourish in her day, throughout all her dominions; direct all her counsels and endeavours to Thy glory, and the welfare of her people, and give us grace to obey her cheerfully and willingly for conscience sake, that neither our sinful passions nor our private interests may disappoint her cares for the public good; let her always possess the hearts of her people, that they may never be wanting in honour to her person, and dutiful submission to her authority; let her reign be long and prosperous and crown her with immortality in the life to come, through Jesus Christ our Lord. Amen.

PRAYER OF CONSECRATION OF THE COLOURS.

O Lord our God, who upholdest and governest all things in heaven and earth, without whom nothing is strong, nothing is holy, we beseech Thee to regard with Thy favor this work of ours to day, and grant Thy blessing upon all our loyal endeavours to defend our Queen, our country and our laws. Bless these Colours to their proper use, and let their uplifting ever be the call and sign of duty and devotion in every just cause. Let them never be sullied by any unworthy act whether of oppression or of fear, but may they ever be sacred to defend our nation's right, and to protect the weak. Continue to our hosts, O Lord, that success which for many generations Thou hast mercifully vouchsafed and inspire our martial bands with the spirit of bravery, endurance and of trust in Thee.

Finally, O Lord, grant to all of us, of whatsoever earthly calling, Thy grace truly and godly to serve Thee, until at length having fought the good fight of faith beneath the banner of the Cross, we may attain the victory over sin and death, and receive the Crown of Glory through Jesus Christ our Lord.

Mrs. Seymour then addressed the New Westminster Volunteer Rifle Corps as follows:—

The agreeable duty devolves upon me to-day of presenting you with a Flag worked by a lady whose husband is one of your Corps.

Mr. Seymour and myself highly appreciate the public spirit which has induced so many of the inhabitants of New Westminster to enroll themselves in the ranks of the Volunteers.

I have heard with much pleasure and witnessed with satisfaction the very high proficiency you have acquired in the use of the rifle, and I feel some pride in being selected to present, as I now do, a Flag, which you will, I know, always carry with credit to the community to which you belong and honor to yourselves. Ensign Bushby take this flag.

Ensign Bushby, stepping forward and kneeling, received the flag from the hands of Mrs. Seymour.

LUNCHEON.

The invitation to luncheon at Government House was very general, and very many availed themselves of it. Meanwhile the Natives were regaled with biscuit, molasses &c., on the Cricket Ground, after which they proceeded to the lower road for the canoe races. The following is a list of the races; the prizes for the first three races were one dollar for each one of the crew of the winning canoes:

First Race, Harrison River Indians, 6 canoes, each paddled by 21 natives.

Second Race, Langley Indians, 10 canoes started with 15 men in each.

Third Race, Fraser, near Harrison, Indians, 12 canoes, each manned by 11 Red-skins.

Fourth Race, Scrub, 8 canoes started, dead heat between two of them, the Committee awarded to each $10.

RIFLE SHOOTING ON SATURDAY.

Five shots at 200yds., prize $5.

24 Competitors. Winner, I. B. Fisher, N.W.V.R.C. Score, 18.

Five shots at 300yds., prize $5.

Although the above embraces the greater part of the regular programme it would convey to the reader a very inadequate idea of the celebration. The fire-works and torch-light processions on Friday and Saturday evenings, the "going to general quarters" by the war ships and the brilliant illumination of the same might be supposed to claim a more detailed description at our hands; but time and space admonish us to be brief. The boat race was a good one, although owing to some misunderstanding about the time, few saw it. Only two boats entered, one belonging to Mr. Murray at the Camp, and the other the "Hyack" belonging to Captain Johnston, of the Hyack Co. It will be seen that the latter won. The horse races were very good, and excited much interest. His Excellency and Mrs. Seymour, together with the Naval Officers and the visitors at Government House came down to see the races, but were only in time to witness the last one, and a scrub race got up at the request of his Excellency. We omitted to mention that the Seymour Artillery were out with their guns on Lytton square and fired a salute on the arrival of the Enterprise, in honor of the Nanaimoites. Although in some particulars the celebration was perhaps less satisfactory than could have been desired, yet as a whole, it was the most elaborate demonstration of the kind which has ever taken place in the country. The first day's proceedings were somewhat interrupted by a heavy shower of rain between 12 and 1 o'clock; but during Friday evening and Saturday the weather was pleasant.

FROM CARIBOO.

The steamer Onward, Capt. Irving, arrived from Yale on Thursday evening. She brought a Cariboo express and mails, and about 50 Indians who came from the interior to celebrate the Queen's birthday. The following is a condensed summary of Cariboo news taken from the *Sentinel* of the 13th inst.:—The winter takings of gold by the two branch Banks on Williams Creek amounted to $335,516 32 being nearly 100,000 in excess of the previous winter.—Williams Creek; The Borealis Co. washed up yesterday (12th) 91 oz.: Cariboo Co. washed up on the same day 200 oz., making for the week 295½ oz. The Davis Co. took out "big pay." Break-o-day Co. were finding prospects of 50cts. to the pan.—Sugar Creek; The O'Hara Co. had run a tunnel into the hill and in 100 feet struck pay, yeilding 12 oz to two sets of timbers. The gold is coarse, some peices weighing $5 to $6. The Creek is about 15 miles long, and the O Hara claim is within 5 miles of its source.—Begg's Gulch; Excel'ent prospects had been struck by the Ancient Briton Co. They were about to commence washing.—Grouse Creek; Great excitement has been felt within the last few days over the supposed discovery of the lost Heron lead in a claim called the Blind Channel Co., located about 1200ft. below the Heron Co., on the same side of the creek. The consequence has been that the claims about to be abandoned have now risen in public estimation and are commanding high prices. It was only last week that the lead was supposed to be on the opposite side of the creek. Such is the uncertainty of mining! The Heron Co. which has not been doing so well for sometime back, last week got into good pay again; they only washed for a few days and divided $200 to the share. The Black Hawk Co., who are just opening up their diggings, washed out for the week 121 oz.—The Full Rigg co., have been making an ounce a day to the hand; they are now preparing to work from their lower tunnel.

CONKLIN'S GULCH.

Ericcson co., have just started washing. United co. only worked a few days last week, and washed up 111 oz. The dividend for the two weeks was $400 to the share. Reid co. will commence work this week. Home Stake co. have started to wash. Hood co. are still blasting through bed-rock. Galour co. are running a prospecting drift.

Arrival of the Nanaimoites.—The steamer Enterprise, Capt. Swanson, arrived from Nanaimo on Friday a little before noon, having on board about 150 excursionists, who had come over here to participate in the celebration. They left again early on Saturday morning.

Notice to Shippers.—We direct the attention o our readers to a notice in another column, respecting the steamer Enterprise, on the upper Fraser.

Distinguished Stranger.—Among those who came over by the Enterprise, to celebrate the Queen's Birthday, was General McKinney, U. S. Indian Agent for Washington Territory.

From Victoria.—The str. Enterprise, Capt. Swanson, arrived from Victoria last evening with freight and passengers. The only item of news of any importance is the departure of Mr. McMillan, of the Annexation Organ, for San Francisco, for the purpose of negotiating the immediate transfer of British Columbia to the United States. It is supposed that Mr. McMillan and Mr. Leonard Mc Clure will proceed to Washington in connection with the movement, where they will be assisted by Felix O'Byrne.

The Victoria Cross. — Saturday's *Gazette* contained a Warrant issued by the Queen under which the decoration of the Victoria Cross may be conferred on persons serving as Volunteers in any of the Colonies, and who may perform deeds of gallantry in the service of their country.

The Indians.—There were fully 4000 Indians here during Friday and Saturday. The greater part of them have left for their homes. They have been most quiet and orderly, and the various tribes appeared to be on the most friendly terms.

Supreme Court.—A notice in the *Gazette* announces that a Court of Assize and general Gaol delivery will be held at Yale on Monday, 3d June; at Quesnelmouth on Tuesday 25th June; and at Richfield on Monday the 1st July.

A Large Drove.—We learn that last week Mr. Jerome Harper arrived at Kamloops with what may perhaps be termed the vanguard of an army of 2000 black battle and 3000 sheep, recently purchased in Oregon.

Looking well.—The crops, we are glad to hear, are looking remarkably well in the country. Recent rains followed by the present warm weather cannot fail to bring them on very rapidly.

Public School.—The public school having become vacant by the resignation of Mr McIlveen, who is about to return to Canada. the Board of Trustees met yesterday and appointed Mr. Hugh Burr as Teacher.

Naval.—H. M. S. Malacca arrived from Esquimalt on Thursday and came to anchor opposite Government House where she still lies. The Malacca drawing 18 feet of water, came in at half-tide without the slightest difficulty. She will probably remain here for ten days.

From Yale.—The steamers Lillooet and Onward arrived from Yale on Monday. There is no news of importance from the interior. Three Chinese were killed at Boston Bar one day last week by the falling of a tree.

Party at Government House.—Mrs. Seymour entertained a large party at Government House on Monday evening. Dancing was kept up until daylight.

Going to the Island.—We understand the Governor and Mrs. Seymour will visit Victoria about the end of the present week.

Sailed.—H. M. S. Sparrowkawk sailed for Esquimalt yesterday at 11 o'clock a. m.

PROGRESS—CIVILIZATION.

To the Editor of the British Columbian.

Sir,—A new nation is born to the Pacific, the advent within the radient limits of the advancing American Republic. Russia,——what she could not use herself, has handed to another power to utilize. The prescience of the American Eagle can appreciate Territory. When Honolulu, placed by Providence with an unoffending population under perpetual summer, was threatened with spoliation by the covetous nations of Europe, the Eagle hovered o'er and said; "Thou shalt not disturb the Sandwich Islands," and the Islands were not sacked. She forbad stripping the legitimate chief family of their "*Koh-i-noor*" to adorn the person of any foreign potentate. She thus founded the growth of an industrious and interesting people, and has hown to the world by her magnanimity, that sugar can be produced without slave labor. Her Christian Missionaries have done their duty well, elevating a primitive people to a knowledge and power, securing to them progressive civilization of the first order. Crossing over the Pacific waters the Eagle reaches her new Territory washed by an Hyperborean sea; a Territory soon to become the *rendezvous* of adventurous Fishermen drawing wealth from the living mines of the Deep. A maritime nation is begotten within a nation; a commerce is begotten by a reciprocally welcome exchange of the products of the north for the products of the south. Children in social intercourse are rocked by Neptune in fishing steamers to exhibit ere long a steam fleet guarded by Ironclads.

HOMO.

Increase of pay for the Army.—It is proposed to increase the pay of all non-commissioned officers and men of the regular Army (including the Canadian Rifles, but exclusive of all other colonial corps) by 2d. per day. The Recruiting Commissioners recommended that this increase should be given only to those men who had served their first period of ten years. In addition to the 2d. per day extra from the date of enlistment, it is proposed to give another 1d. per day to all non-commissioned officers and men on re-engagement, excluding colonial corps, as in the first instance. As the estimate includes £750 as the salary of a brigadier-general as inspector of recruiting, it would seem that the suggestion of the recent commission, to the effect that the recruiting department should be an entirely distinct branch of the service, is to be adopted. To induce men to join the Militia in large numbers an additional 2d. per day is given to all non-commissioned officers and men when called up for annual training, and also when called up for preliminary drill. An addition of 2d. per day is also to be made to the pay of the non-commissioned officers of the permanent staff. The first idea that naturally strikes the mind of the cursory reader is the insignificance of the figure. Twopence a day! What a trifle to make such an ado about. Yet we are informed by unquestionable authority that this apparently trifling increase proposed as above will make up an aggregate sum of £500,000, or $2,425,000 a year! What a striking illustration of the truth of an old and musty but most valuable proverb, "Take care of the pence and the pounds will take care of themselves."

A Relic.—A lady in the first society was recently obliged to dismiss her nurse on account of an excess of firemen and private soldiers too often repeated. After choosing as a successor to this criminal a very pretty girl, the lady, explained why the first was sent away, enjoined on the second not to do likewise. She admitted that she shouldn't. "I can endure a great deal," said the lady, "but soldiers about the kitchen I won't endure." After a week or eight days the lady came one morning into the kitchen, opened a cupboard, and discovered a youthful military character. "Oh, ma'am!" cried the girl frightened, "I give you my word I never saw that soldier before in my life; he must have been one of the old ones left over by the other girl."—*New York World.*

An Extraordinary Legal Fiction.—In the neighbourhood of Presbourg, in Hungary, a few days since, a woman was charged with being the receiver of stolen goods, which were found in the cellar of her house. She had been most of her life a Jewess, but about six months ago she was converted by a priest of the Church of Rome. The date of birth runs in Hungary from the date of baptism. Therefore the woman, when on trial, made the ingenious plea that she was an infant, not come to years of discretion, and could not legally be convicted. The intelligent tribunal, after serious cogitation, held her defence to be a good one, and acquitted her. The widow now finds herself to be in an excellent position. Being legally only six months old—though virtually over 40—she can use her years of indiscretion to thieve or commit other crimes without fear of legal consequences.

☞ In a time of much religious excitement and consequent discussion an honest Dutch farmer on the Mohawk was asked his opinion as to which denomination of Christians was on the right way to Heaven? "Vell, den," said he, "ven we takes our wheat to Albany, some say dish road is de best, and some say dat—but it don't make much difference which road we take, for ven we get dere dey never ask us which way we come —dey just look if our wheat is good."

The Russians have made a discovery on the Syr-Daria of considerable interest to antiquaries—a town, about three miles in diameter completely buried in sand and overgrown with bushes, at a spot which was, formerly on the Sea of Aral.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours: eschew the use of coffee and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,
Bad Breasts,
Burns,
Bunions,
Bite of Mosquitoes and Sand-flies,
Coco-bay,
Chiego-foot,
Corns (soft),
Cancers,
Chilblains,
Chapped hands,

AYER'S CATHARTIC PILLS.

ARE you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering & disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have cured with your Pills better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect,
ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood*.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse the stomach* and *expel worms*. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains*, which ended in *chronic rheumatism*. Notwithstanding I had the best of physicians the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years.

VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

After a long research, we are able to present the most present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., a fact attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the regions of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate xercise, and the human machinery will be quickly retored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.
